

IMPORTANT FROM CALIFORNIA.
Arrival of the Alabama at New Orleans.
Another destructive fire in San Francisco.
100 Buildings Burnt—News from the Mines, Markets, Lathums, News, &c.

NEW ORLEANS, Nov. 2.
The steamer Alabama, Foster, from Chagres, arrived at this port yesterday, with two days later news from California, bringing dates to the 17th ult.

The health of the lathums was good. All excitement relative to the attempted revolution in New Granada had pretty much died away. Rain continued to fall, though it did but little effect on the roads, which were in such order as to enable all to pass over with but slight difficulty.

The accounts from California are not of a very encouraging nature. San Francisco has been visited by another destructive fire, which consumed over one hundred buildings, causing much distress among the occupants thereof. Preparations were to be made at once, however, for removing the rubbish, and erecting more substantial buildings.

The financial crisis still excited much talk, but it was thought the worst was over. From the mines there is little new to add to that brought by the Pacific; the accounts are somewhat contradictory, but still of a very favorable character. New discoveries were being made daily. The rainy season was about commencing.

The passengers by the Alabama have considerable gold dust with them.

MARKETS.—Flour was in good request at \$14.10 for Chili, in 200 lb sacks, and sweet western, \$12.25.

Bricks were selling moderately at \$20.25 per M.

Coal had a downward tendency.

Coffee quiet, and prices heavy.

Lumber continued in good request, at steady and rather improving prices.

Tea was not plenty, and prices in consequence very firm. Furniture was little inquired for.

Provision market generally firm. Sales of Mess Pork at \$22.24, and Prime at \$16. Butter 25.00c. Lard 18.25c.

Preserved Meats were dull.

Money Market firm. Gold Dust \$16.12, \$16.25.

Arrival of the Steamship Washington.
New York, Nov. 4.

The steamer Washington arrived yesterday afternoon, in a thick fog, with 105 passengers, and a large cargo, including 250 tons of goods from Bremen.

The last advices from London are to the 20 ultimo, being two days later than those by the Canada.

The news from England is of little importance. The markets appear to have undergone no change. Flour and wheat were dull.

The overland mail from India arrived on the 19th, but the general news was anticipated by telegraph. The accounts had a good effect in London, and consols closed at 97.97 1/2 for money.

In Paris, the Legation party are still unfavourable to the prolongation of the President's power.

SPAIN.—The accounts from Madrid state the Cabinet was making great efforts to get over the first of November, the period for opening the Cortes.

The troops which sailed from Cadix for Havana, amount to 1244; and General Coucha, with fresh detachments, was to sail on the 15th.

GERMANY.—The improvement noticed in the affairs of Hesse Cassel, had evidently been arrested by the bad management of the new ministers, and the State was still in a disorganised condition. A new ministry has been constituted in Hanover.

The Lynch Law.

A special session of Judge Lynch's Court was lately held at Clinton, Ia. The account states that a young man attacked a little girl in the woods, and frightened her by his low attempts. The girl's father and about forty friends, took the fellow across the river, and hung him by the hands to the limb of a tree, and gave him one hundred lashes with hickory whips, raising large blisters on him, besides drawing blood, and then bade him travel.

Review of the Portsmouth Market, for the week ending, Nov. 11, 1850.

THE WEATHER.—During the present week we have had mild weather, and warm for the season. The present time of writing opens with prospect of drizzling rain for a day or two.

Business.—The improvement noticed last week has continued till now, and a large amount of business was done, both in Dry Goods and Groceries, and this also in the absence of any speculative movement.

Tax Revenue.—has been slowly receding during the week, and several boats are reported aground between this port and Pittsburgh. The regular packets however are making their regular trips.

Our readers are respectfully referred to the following review and quotations of our market:

FLOUR & GRAIN.—It will be recollected that the market price of flour last week was firm at \$3.50, but during the week a downward tendency was noticed, and a decline of five cents was submitted to, at which the sales were large. Prime Wheat still commands last week's quotations.

SUGAR & MOLASSES.—Small parcels of new crop Sugar and Molasses have made their appearance, but are heavy both in price and otherwise. The market for both tends downward. The stock of old Sugar and Molasses is nearer closed out than usual in this market.

COFFEE.—The average sales of Coffee during the week have been at 12 1/2 cents, and the market seems to have reached a stand.

Tobacco.—A short crop of Tobacco in Virginia and Kentucky, has caused an unprecedented advance in all kinds of manufactured tobacco, and the lowest grades have now attained the prices of the best article in past two years. The 6 twist tobacco formerly sold at 5 1/2 and 6c, is now worth 13 cents at manufactory, and the lowest grade of Cavendish is worth fully 20c.

PORK.—There is some enquiry as to the probable price of Pork the coming season, and we learn that there will be a heavy business done in cutting and packing here, if rates will justify. From enquiry of our Kentucky friends, we learn that there is a decrease of hogs there. The market will open it is thought at \$3.

WHISKY.—Sales during the week have been at 21 a 22c.

Potatoes.—Is held at \$26 from wharf, usual time.

WOOD AND COAL.—There are full supplies of Wood, Coal and Coke at the wharf. Coal held at 7 cents from boat and \$5.25 delivered. Wood ranges from 1.75 to \$2 per cord as in quality.

LIME.—Louisville Lime is \$1 per bl by late arrivals, and full stocks.

Look here, my Friend!

Stop, and let us Reason Together.

Are you a Father, laboring for the support of a family, and suffering from general debility and low spirits, so that life almost seems a burden, use Dr. S. D. HOWE'S SHAKER SARSA-PARILLA.

ARE YOU A MOTHER,

suffering from disease, to which females are generally subject, use Dr. S. D. HOWE'S SHAKER SARSA-PARILLA—it will certainly cure you.

Male or female, old or young, ALL and EVERY FAMILY should have this EXCELLENT FAMILY MEDICINE by them. Call at our depot, or on one of our Agents, and get a pamphlet, gratis, where you will find

Facts! Facts! Facts!!!

That can be substantiated by thousands of living witnesses in this city and country, viz: that the

Shaker Sarsaparilla,

As prepared by Dr. S. D. HOWE, has been the means of permanently curing more diseases to which the human family are continually subject, than any other preparation of Sarsaparilla ever yet brought before the public.

The purity and efficacy of the Shaker preparation is well known and requires no long list of certificates and cures to introduce it; its increased demand for the past twelve years, is its best recommendation.

This medicine has established its high reputation throughout New York and New Hampshire, and the eastern States generally, by its numerous and well attested cures; and also by the recommendation and approval of the first physicians, who now use it in their private practice.

It is the only Sarsaparilla that acts on the Liver, Kidneys and blood at the same time, which renders it altogether more valuable to every one, particularly Females.

Dr. Mamey, Professor in the Ohio Medical College, says the Shaker preparations are truly valuable, and recommends them to the public.

No MERCURY—no MINERAL—no POISONOUS DRUGS in the SHAKER SARSA-PARILLA.

REMEMBER,

It is warranted to be purely and ENTIRELY VEGETABLE,

And as a Female and Family medicine it has no equal.

Be sure that you inquire for Dr. S. D. HOWE'S Shaker Sarsaparilla, and take no other.

Let the Afflicted Read!

The principles of disease, like that of the principle of life, is alike incomprehensible to mankind. We only are able to point out what will weaken the one or give strength to the other. The value of the Brandreth Pills depends upon their wonderful power in strengthening the principle of life, and weakening the principle of disease, and finally expelling it from the body. Let us consider the subject carefully. Would disease affect us if our blood were pure? Then, in proportion that Brandreth's Pills purify the blood, they tend to restore health. The very action upon the system which Brandreth Pills possess, convinces all who use them that they remove only the impure humors. For if they took any of the healthy fluids from the body, it would be weakened. But the contrary is the case. The body becomes stronger every day, from the use of the Brandreth Pills, as is known by the experience of tens of thousands of our citizens.

Where is the man of sense, whose mind is unprejudiced, who, from the infectious smell after death, would not say, would this body have been bereft of life, had putrefaction been prevented?—are men born to be sick, shall the lower animals live their full term, and man only prematurely perish? Let us follow nature—in us cleanse the blood from impurities, and we shall live to the full extent of the oil in our lamp of life.

But continued purging will wear out the body—some otherwise sensible people affirm, that it is like wearing out the kettle by dint of rubbing. Does, then, rust preserve metallic substances? It would be admitting that impurities in the blood preserve it in a healthy condition. We know better. We know that the result of an impure state of the blood is to occasion salt rheum, erysipelas, weakness, general debility, pains in the breast, back and side; also, fits, palsy, dyspepsia; in fact, wherever the impurity finds a weak portion of body, there it produces pain and disease.

I have known many persons purged twenty or thirty days in succession, and the result is always successful. In every instance, the most remarkable improvement took place. I remember one person, who I know had worms, from his peculiar symptoms he persevered for forty days; every day for the forty days, no appearance of worms was seen, but after that time he voided great numbers, some of extraordinary size. What effect would have resulted from three or four doses of cathartics?—what would have become of him, if he had not been purged to a radical cure? It would be impossible to show the benefit to be derived from a proper perseverance with the Brandreth Pills in these limitations. They must be used to be scientifically appreciated.

NEW BOOT AND SHOE MANUFACTORY.

THE undersigned having associated themselves together under the name and style of

R. BELL & CO.,

for the purpose of prosecuting the Boot and Shoe manufacturing business in all its various branches, would respectfully inform the citizens of Portsmouth, and the public generally, that they have commenced operating in the brick block two doors south of Messrs. Davis, Smith & Co., on Market street, at which place they intend keeping on hand every variety of Boots, Shoes, Slippers and Gaiters of their own manufacture at

Wholesale and Retail.

To FURNACE MEN and DEALERS: we can furnish Boots and Shoes at such prices as will make it their interest to purchase at home, and can furnish them just such sizes, kinds and quantities as may be best adapted to their wants, and of such we solicit an examination of our Stock. We believe with many others, that no good cause exists to prevent successful manufacturing in a west, and with a view of testing its practicability, we have embarked in this enterprise, hoping to succeed, not only in benefiting ourselves, but to contribute in a proportionate degree to the benefit of others.

We will supply customers with our own work at retail at the lowest possible prices, made to order, of whatever material they may desire, and will give particular and prompt attention to orders at home and from abroad.

We are also receiving a full assortment of

Eastern Work,

comprising the different varieties of style usually kept in this market, to which we invite the particular attention of purchasers, as all our stock has been purchased direct from Manufacturers for CASH, and will be sold at very low rates.

To Manufacturers we offer the choicest

Kep, Calf, Kid, Morocco, Binding and Binding Skins, together with Leather and Leather and a general assortment of Shoemakers' Kit and Findings. Suffice it to say that we expect to keep constantly on hand a full supply of

BOOTS, SHOES AND LEATHER

of all descriptions, which will be offered to dealers and consumers at such rates as cannot fail to meet the views of the lowest buyers, and we will spare no pains to please all who favor us with a call.

We pledge ourselves to FAIR TRADE and SMALL PROFITS, and all we ask is a fair trial, and such a share of patronage as the quality of goods, low prices and a disposition to accommodate may entitle us.

WM. ELDEN & CO.,

Wholesale and Retail dealers and Regulators of

DRY GOODS

MARKET STREET.

HAVE just received their splendid stock of Fall and Winter Goods. Which for variety, beauty of style and Low Price will challenge competition from any quarter in, around and about these dignities.

This being the age of Progression and Improvement the age of steam and electricity, we endeavor to keep up with its spirit by improving our stock, consulting the tastes of our customers and selecting all the new styles and designs, which the genius of the trade has conceived, and at the same time, keeping a steady eye to the useful as well as the fanciful, the substantial as well as the ornamental, and economical as well as extravagant descriptions of Goods.

We feel most grateful to our patrons and a generous public, for the liberality of their patronage the present year, affording a great position, which very many of our citizens of towns and country have been sorely afflicted with the calamities of sickness and death.

Now, however, that the season of Autumn, with her bracing winds, is upon us, we congratulate you upon a speedy return of stout hearts and strong services—and which we know, intimates you all—a spirit of thankfulness to the Giver of all Good for His mercies.

Without an attempt to enumerate the innumerable items of our stock, which is positively the most desirable we ever offered, we say to one and all, the Country Merchant, or the purchaser for family use, Ladies, Gents and Children. Old and Young, Rich or Poor, come to the Regulators and make your purchases.

We always meet with some speculations in goods, and have—fall to give our Customers the advantage of them. If you wish to supply your necessities, come to the Regulators. If you wish the fanciful as well as the substantial, or better have any notion of getting married, and want the fashions come to the Regulators. And, in so doing, you will be making a fortune more dazzling and brilliant to the imagination than all the fancies of the heated brain of a subject of California fever, come up to the Regulators. Delay is dangerous. Drop everything and come right off, and never look back, (remember Lot's Wife) else you may miss the Regulators.

Look for the place in Market Street.
